GLAD GROWERS GOSSIP CLUB

VOL I

CANANDAIGUA, N. Y.

NO. I

Published Every Once in Awhile

President - - - **Every Body**
Treasurer - - - **No Body**
Initiation Fee, One Copper, Payable to Treasurer
Annual Dues, Contribution of Item of Gossip of
Interest to the Rest of Us. Make It Snappy.
Charter Members, All Who Receive a Copy of
First Number.
Gossip Monger in Chief, Gladiolus Bill, Self Ap-
pointed.
Assitant Gossip Mongers, All Who Dig Up the
Gossip.

Every Body Happy

Fine growing season, a bumper crop, ideal harvesting conditions and prices holding well.

—[Glad Gossip]—

Vital Statistics

Recovered — Schwaben. About double the price of two years ago. Should be worth growing as there is a big demand.

Obituary—A. G. S. Bulletin passed away.

Births — A. G. S. — Review. Born December 1, 1927.

Roscoe Huff is a proud Daddy.

—[Glad Gossip]—

Ask Jess

J. D. Long—Boulder, Colorado. His front name is Jess. Ever see his "Applesauce Story"? Ask him for a copy, then read it through. Some mighty good principles in it.

—[Glad Gossip]—

Rushed to Death

Doc Bales, Circleville, Ohio, used to be the busiest man in the world. Now it's Al Britsch, Toledo, Ohio.

Perhaps He Does

William Edwin Clark, Sharon, Massachusetts. He is a New England Yankee. Don't dare call him "Bill". Anyhow, Bill says the best 12 Glads are Mrs. Peters, Mrs. W. E. Clark, Sunnymede, Ethelyn, Goehl, Rosemist, Dr. R. T. Jackson, Priscilla Alden, Primadonna, John Alden, Gold Elsie and Miss T. Rose. Perhaps he knows.

—[Glad Gossip]—

Staking His Shirt

Carl Salbach, Berkely, California, is betting his shirt on Betty Nuthall and Orange Butterfly as future moneymakers. I like his Helen Wills and Emily Aubrun. He has taken a shine to Bill's Fort Sumter.

—[Glad Gossip]—

Bunch of Betty Joys

W. H. Parkman, Lyons, New York, has a nice bunch of Betty Joy to sell.

—[Glad Gossip]—

An Ear Full

It is not such a task to treat your bulbs before planting as you might think. If you have any signs of disease present, better treat them. It used to be a disgrace to have any diseased stock. Then it became a common ailment with nearly everyone. Research laboratories have shown us how to eliminate disease. If we fail to do so, we will again be in disgrace.

John Davis Ventures

John Davis, 77 South avenue, Rochester, New York, will publish a new magazine, "Better Flowers". It should be a good advertising medium.

—[Glad Gossip]—

Bargain Boomers

The Glad Emporium, Canandaigua, New York, is offering some good bargains of Bill's Originations in the columns of the Florist Review.

—[Glad Gossip]—

In Southern Climes

Carl Hinkle, St. Joseph, Michigan, will spend the winter at Laurel, Mississippi.

—[Glad Gossip]—

Good Luck, M. F.

M. F. Wright, Honor, Michigan, has time to go hunting in Texas and Mexico. Wonder how he does it. When a young lad like M. F. goes hunting, it would seem that he should tell how he spells deer (dear?).

—[Glad Gossip]—

No. 1 Bulb Shortage

Reports indicate a shortage of No. 1 size bulbs. This seems to be true even in New England where rains were plentiful. In Central and Western states protracted drought cut down the size of bulbs.

—[Glad Gossip]—

"In the Running"

Bill (the writer) says, Opalescent is going strong. Elegant stock and the right time for you to buy.

—[Glad Gossip]—

Perhaps I Can Tell You

If you want to buy some stock, let me know and perhaps this sheet will find it for you. If you have a surplus to move, perhaps I can help you.

??????

Is Scarlet Princeps really a good forcing variety? You tell us.

—[Glad Gossip]—

Making a Test

Ramond Champ, Walled Lake, Michigan, is going to run a test on Break O'Day in his green houses at St. Petersburg, Florida, to determine adaptability for forcing.

—[Glad Gossip]—

Doosaredoagin

Taking for granted you are a member of the A. G. S. Now is the time to send Roscoe Huff two good American dollars for your 1928 dues.

—[Glad Gossip]—

Mary Still a Star

Not much Mary Pickford offered for sale and demand is good.

—[Glad Gossip]—

The New Baby---1928

Father Time is just about to present us with a new baby—1928. In his infancy, while wailing in his blanket of "Beautiful Snow," we will patiently, but anxiously, wait for his laughing days when he will be decked in garlands of Glads.

—[Glad Gossip]—

Get Inquisitive

Ask questions, answer questions, and I will pass it along to the gang. Want to issue this sheet periodically and spasmodically.

Yours,

"GLAD BILL".
